

Randall Hull Joins Prometheus Energy Team as Director of Business Development

Key appointment to accelerate company's LNG sales and marketing

Houston, Texas – May 14, 2012 – Prometheus Energy Group, Inc., a leader in liquefied natural gas (LNG) solutions for the industrial sector, today announced that Randall Hull has joined Prometheus Energy as Director of Business Development, a newly created position based in the company's headquarters in Houston, Texas.

Mr. Hull will be responsible for leading the company's business development, sales and marketing efforts as it continues its rapid growth and strengthens its leadership position in developing the market for LNG as an industrial fuel.

"Randy has over three decades of experience with customer-driven solutions and extensive management and strategy experience," says Ron Bertasi, Chief Executive Officer. "Randy's leadership will be an important asset as we accelerate our business development during this phase of our company's growth."

Mr. Hull recently served as President of Petrochem Outsourcing, a global consulting practice. Prior to that role, he served as Senior Vice President Sales, Marketing & Business Development at Marsulex, Inc., supplying products and services to petroleum refining, specialty chemical and energy industries in North America. Mr. Hull has held several additional senior sales management and business development positions with Praxair, Inc., and Environmental Power Corporation.

"Prometheus Energy offers a unique value proposition, including a national LNG supply network and a portfolio of proprietary customer application solutions, to serve a variety of industrial customers across diverse sectors, seeking lower fuel costs and reduced environmental footprint," says Mr. Hull. "I look forward to working with a very talented team and joining a company that is at the forefront of creating proprietary turnkey solutions for its customers."

About Prometheus Energy

Prometheus Energy is one of the largest and fastest growing suppliers of liquefied natural gas (LNG) to the industrial sector in North America. Prometheus provides turnkey fuel solutions to convert industrial users of diesel, propane and other crude-derived fuels to clean, domestic, secure LNG, resulting in reduced fuel cost and environmental footprint. The company is vertically integrated from LNG production through distribution, onsite storage, and vaporization. A pioneer in the industrial LNG market, Prometheus developed first-of-their-kind conversions of industrial fuel consumers to LNG in numerous sectors, and received an Award of Excellence at the 2011 Platt's Energy Awards in recognition of its industry leadership. Prometheus Energy Group has more than 60 employees in offices in Houston, TX, Redmond, WA, and through its joint venture entity, LNG Silesia Sp.zo.o, Katowice, Poland. Prometheus Energy is privately held by Shell Technology Ventures Fund 1 B.V. and Black River Asset Management

LLC, a wholly owned but independently managed subsidiary of Cargill. For more information, please visit www.PrometheusEnergy.com
